

Silent Flo Pool Pump

Pentair Water answers the latest issues in the Swimming Pool Industry with the release of the SilentFlo range of pumps.

These are the quietest and most efficient pumps available, to minimise the cost and maximise the enjoyment of pool ownership.

Typical Applications

- Pools from 20,000 litres up to 130,000 litres.
- High quality pools where quiet operation is a must.
- Pools where high efficiency is required.

SilentFlo Pool Pump

Features	Benefits
Extremely quiet hydraulic design	Your customers will be able to run this pump at night, without disturbing the neighbours. This allows them to take advantage of the upcoming time of use off-peak tariffs
Extremely efficient hydraulic design	Minimises running costs for your customers - more turnovers for less dollars
Elevated base - further dampens sound and vibration, and keeps the pump above sitting water	Even quieter operation, and minimises pump corrosion by keeping it out of the water
Stainless Steel motor shaft	Extends the life of the pump by reducing corrosion
Large volume strainer basket	Minimises the maintenance requirement by extending the time between strainer basket clean outs
Included 50mm barrel unions	Quick and easy to install, while allowing pump removal without flexing pipework
Dual connections: 50mm thread or 50mm barrel unions	Allows piping flexibility - threaded connections allow for permanent installation - service is still possible by removing the motor and yoke from the casing
Thermoplastic casing and hydraulic parts	Total corrosion resistance for long life and peace of mind
Electrical approvals	The SilentFlo range of pool pumps have passed all the requirements of AS/NZS 60335.2.41:2004 for safety, and is approved for installation within the wetted zone of the pool area
Captive bolts	Easy servicing, no lost fasteners
