Battery Controller/ Remote Control Programmer

It should come as no surprise that the Toro Remote™ Series offers proven reliability so technically advanced it's actually easy to use.

After all, what would you expect from Toro?

Our Remote™ Series saves time and money with installation ease - no trenching or field wiring. Superior waterproofing and extended battery life (more than one year with one battery) make Toro Remote™ a leader in reliable performance.

The simple advantage is, it's easy to use. Each unit can be hand programmed. We've also made field programming easier with our remote control programmer.

For maximum flexibility, the Toro Remote™ Series offers the 3000 model to fit your specific applications and needs. The 3000 model has a low profile, LED indicator lights and a range of features to make the most of your budget, while giving you the access and control you need. It's that simple.

This reliable, yet budget priced unit will supply ease of operation and piece of mind in those remote and powerless areas.

Toro Irrigation Remote 1000/3000 & TRCP8 Plus
