

TORO

Count on it.

PRISM™ Pocket PC

Remote Irrigation System Manager

GOLF CONTROLLERS

Hand-held
central control.

***With PRISM take action,
not notes—there is no need
to take notes or remember
changes while in the field.***

***PRISM is fast, accurate
and fits in the palm of
your hand.***

In this day and age, time is precious. You don't have time to sort through databases to make changes or adjustments to your irrigation system. There's no time to memorize complex radio commands when manually starting, stopping or holding sprinklers in the field. The Toro PRISM lets you command all of your important golf course irrigation operations from the field. It's fast, accurate and fits in the palm of your hand.

PRISM™

Features

- ▶ Manually start stations, change station percent adjustments or put selected sprinklers on hold
- ▶ Review and adjust system data
- ▶ PRISM desktop software allows you to download all changes to update your SitePro system
- ▶ View greens, tees, fairways, traps, etc.
- ▶ Select holes and sprinklers
- ▶ Modify sprinkler and satellite symbols
- ▶ Allows you to accept or reject input changes
- ▶ Includes protective metal cover
- ▶ With the QuickView™ feature, use PRISM before you have a map—it converts SitePro® data into a grid view with a station summary display much like T.Map™
- ▶ Send radio commands (with repeat functions)
- ▶ Save and recall up to 20 user-defined commands
- ▶ Alter all data at once or enter individual changes
- ▶ Modify all hold times by utilizing a pop-up calendar
- ▶ One-year NSN® support
 - Toll-free telephone support
- ▶ Voice recorder, mobile address book and calendar capability
- ▶ User interface available in five languages: English, Spanish, French, Italian or Swedish
- ▶ Both Standard English and Metric measurement units available
- ▶ Works exclusively with:
 - Toro SitePro®
 - Network CDS
 - Network LTC™
 - Network LTC™ Plus
 - Network DR2™
 - Network 8000®
 - Network VP in conjunction with the Network Hand-Held remote system
 - SitePro for OSMAC®
